# Grow

agriculture

In the north, south and Absheron of Azerbaijan, which unites 9 out of 11 climatic zones, we meet all world standards and intensively continue our activity in agriculture on an area of over 700 ha.

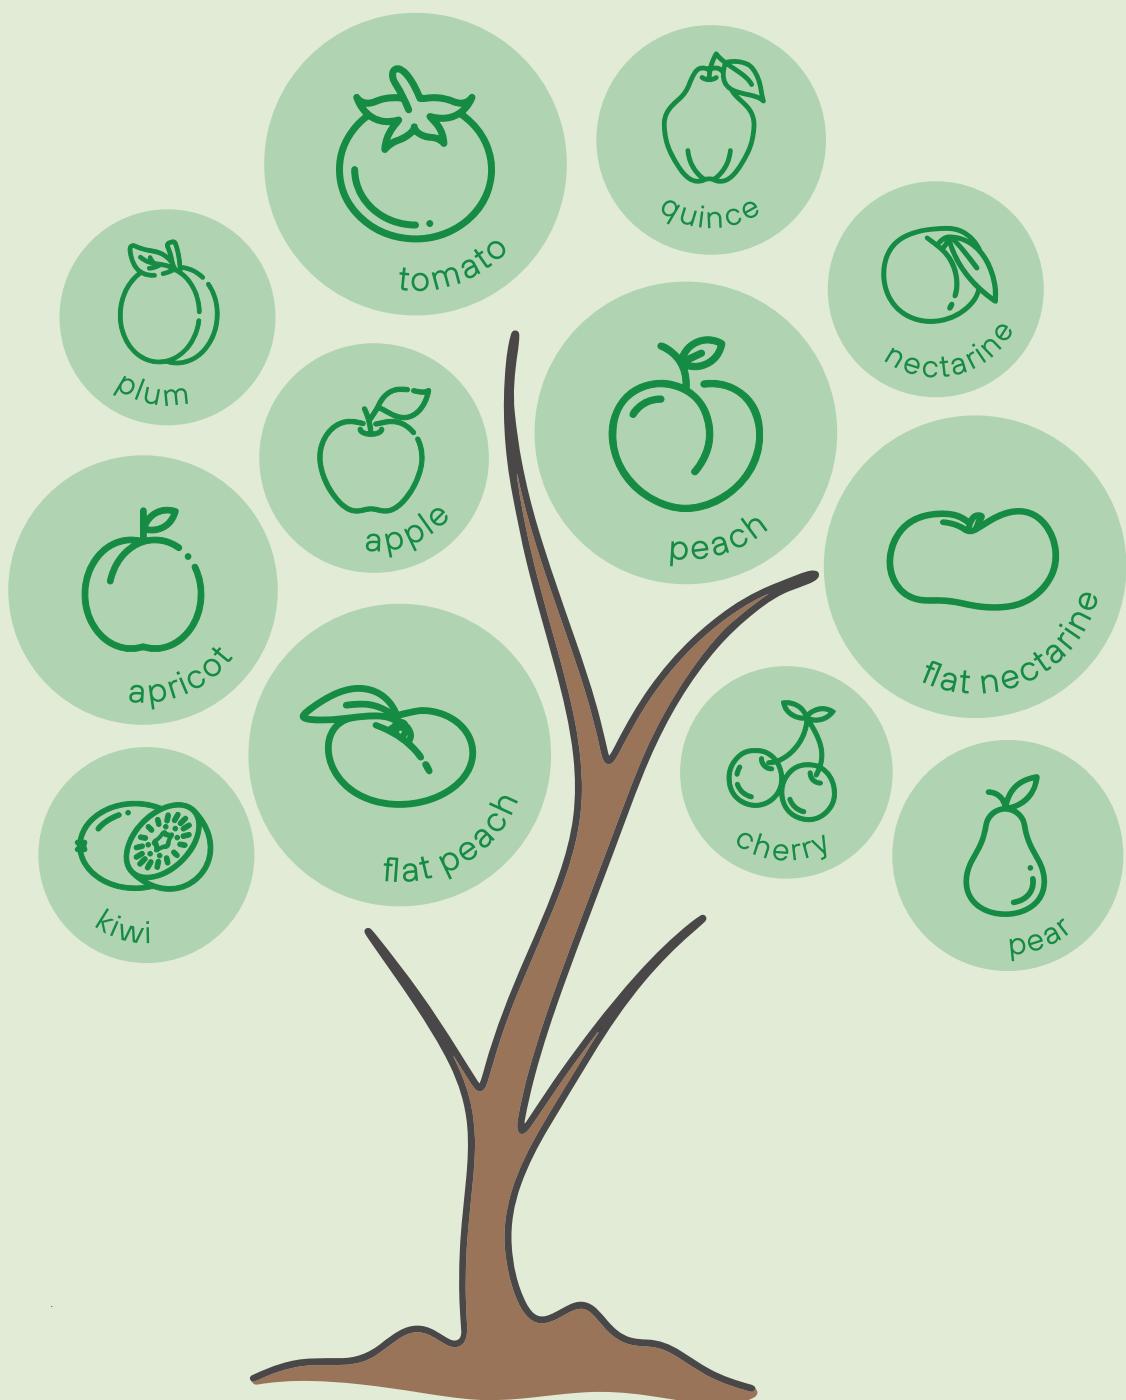

In the northern region We have a 10.000 tons capacity warehouse with an 10.000 m<sup>2</sup> area. The fresh fruits are harvested from orchards is imported and stocked in RGS ULO storages. The following process takes place for sorting and packaging. Further, it is exported from the warehouses for sale and delivered to customers not only throughout the region, but also around the world.
